

Rotary Pipe Positioner RSV 500-1000

RSV is dedicated for clamping and turning of pipes and profiles. Together with plasma rotator and advanced software modules and libraries from MicroStep it offers the full range of pipe based applications.

Technical parameters RSV 500

Min. diameter of tube	30 mm
Max. diameter of tube	500 mm
Max. length of tube	6000 mm
Max. weight of tube	1000 kg
Clamping	three points chuck

Technical parameters RSV 700

Min. diameter of tube	30 mm
Max. diameter of tube	700 mm
Max. length of tube	12000 mm with Ø up to 700x25 mm 10000 mm with Ø up to 700x30 mm 12000 mm with Ø up to 590x30 mm
Max. weight of tube	7000 kg
Clamping	three points chuck

Technical parameters RSV 1000

Min. diameter of tube	50 mm
Max. diameter of tube	1000 mm
Max. length of tube	12000 mm
Max. weight of tube	9000 kg
Clamping	four points chuck

Please note: Some parameters (e.g. Max. thickness of material, Total stroke etc.) vary with the machine type the tool station is installed upon.
