

Tungsten Grinders & Electrodes

G-Tech and Spares

The ESAB G-Tech is a tungsten-electrode grinder with a unique enclosed wet-grinding system. A wet grinding system is the most effective protection from thoriated tungsten grinding dust. All dust is collected in the liquid and the risk of oxidation of the electrode is reduced. The grinding angle can be adjusted and the tip can be ground in a 90 degrees angle to make it less pointed. The small table seen in the picture is not included and is not available from ESAB.

Kit – Electrode holder and handle	0700 009 039
Kit – Seal abrasive wheel with seal and ‘O’ ring	0700 009 040

TIG Pen

The TIG PEN allows the welder to control the tip of the filler wire with great accuracy even at a long distance from the weld seam and in the process helps the welder to obtain a higher quality weld. It also eliminates waste of the filler wire. The TIG Pen can be used with any wire diameter from 1.0 to 3.2mm
