Added reach

- HyAccess™ consumables are approximately 76 mm (3") longer than standard Powermax® consumables.

Enhanced visibility

- The added length, combined with a narrower profile, gives Powermax users a better view of the work piece.

Ease of use

- Switching between standard Powermax and HyAccess consumables is fast and easy.

Uncompromised cut quality

- HyAccess consumables deliver the same excellent cut quality as standard Powermax consumables.

Versatility

- HyAccess consumables enable the use of Powermax systems for jobs previously dedicated to other tools.

SHAPING POSSIBILITY™

HyAccess™ consumables are great for the garage

I had no idea just how useful and essential the HyAccess consumables would be until I started using them. In addition to being able to reach into limited access areas, the narrower profile offers more visibility and therefore makes it easier to make even more precise cuts with the torch. The high visibility makes it easier to trace when using templates. The narrow consumables hug the tight curves of even a complex template.
