3M™ SecureFit™ 400

**Good things are
even better now.**

Perfect protection and uncompromising design.

#protectiveeyewear

3M™ SecureFit™ 400. One product. Three types.

3M understands how challenging it is to securely fit a diverse workforce with eye protection.

The original 3M™ SecureFit™ 200 Series Eye Protection features the proprietary self-adjusting 3M™ Pressure Diffusion Temple technology that helps enhance frame comfort while not compromising the security of fit across a diverse workforce. But the innovation doesn't stop there. The 3M™ SecureFit™ 400 Series Eye Protection has additional features for added comfort, style and wearability as well as additional coating options. In addition the 3M™ SecureFit™ 400 Series now also includes three reader versions (+1.5, +2.0, +2.5).

Patented Pressure Diffusion Temple (PDT) technology

Wrap-around design for a secure, comfortable fit

Sporty, frameless single-lens design

Robust polycarbonate lens material conforms to EN166:2001

Soft adjustable nose pads

Soft temple tips

3M™ SecureFit™ 400.

The 3M™ SecureFit™ 400 Series gives increased comfort thanks to softer temple tips and soft, adjustable nose pads. Moreover, the 3M™ SecureFit™ 400 safety glasses are available in a range of lens tints: clear, grey, blue mirror and indoor/outdoor mirror.

3M™ SecureFit™ 400,
PC – grey

3M™ SecureFit™ 400,
PC – indoor/outdoor

3M™ SecureFit™ 400,
PC – blue mirror

- 3M™ SecureFit™ PDT ensures comfort and security of fit across a diverse workforce
- Coated both sides for reliable Anti-Scratch and Anti-Fog protection (Mirror versions Anti-Scratch only)
- Lightweight safety glasses – 19 g
- Secure fit, good temple protection
- Durable polycarbonate lenses absorb 99.9% of UVA and UVB rays

3M™ SecureFit™ 400 Readers with reading dioptres (+1.5, 2.0, 2.5).

3M SecureFit 400 safety glasses with bifocal lenses offers the usual reliable and comfortable protection and also has three reading dioptres (+1.5, +2.0, +2.5) to help workers engaged in small detail work.

- 3M™ SecureFit™ PDT ensures comfort and security of fit across a diverse workforce
- Coated both sides for reliable Anti-Scratch and Anti-Fog protection
- Lightweight safety glasses – 19 g
- Secure fit, good temple protection
- Durable polycarbonate lenses absorb 99.9% of UVA and UVB rays
- A choice of three reader dioptres: +1.5, +2.0, +2.5
- Available for the clear lens

3M™ SecureFit™ 400 with 3M™ Scotchgard™ Anti-Fog Coating.

We have extended the SecureFit 400 series by adding a variety of temple colour and lens colour options as well as the premium 3M™ Scotchgard™ Anti-Fog Coating for excellent vision and durability even in extreme working conditions.

water droplets block vision

water droplets flatten out and form a thin film

Premium 3M™ Scotchgard™ Anti-Fog coating

Meets and exceeds the requirements of the K and N additional tests in the EN 166:2001 standard for protective eyewear:

K: Test for abrasion by fine particles

N: The lens must remain unfogged for eight seconds

- 3M™ SecureFit™ PDT ensures comfort and security of fit across a diverse workforce
- Coated both sides for reliable Anti-Scratch (K) and Anti-Fog (N) protection meeting the requirements of EN166:2001
- Lightweight safety glasses – 19 g
- Secure fit, good temple protection
- Sporty design available in a range of temple colour combinations
- Durable polycarbonate lenses absorb 99.9% of UVA and UVB rays
- A range of lens tints – see overview

3M™ SecureFit™ 400 Series Protective Eyewear – available with a wide range of lens options for a variety of working conditions.
